

22 August 1962

MEMORANDUM FOR: Director of Logistics

SUBJECT: Motor Pool Service

1. In the recent past I have found the cooperation and service from the Motor Pool to be excellent. However, in an effort to assist your people in correcting deficiencies, I would like to report an incident of yesterday, 21 August.

2. Several hours prior, arrangements were made for a car to pick me up on the Senate side of the Capitol at 2:30 p.m. Actually I was through my business earlier and was waiting at 2:25 p.m. After searching both sides of the steps on the Senate side of the Capitol, I finally telephoned at twenty minutes to three to inquire about the car and was informed it was there. I was informed the car was a black Chevrolet. Therefore, I went back out to look for the car. It was still not there. I telephoned again at about five minutes of three and was informed definitely the car was there waiting for me but this time was advised it was a Plymouth. I again looked for the car which was not there and finally took a cab to Headquarters at Langley.

3. I do not believe this is a good example of efficiency and best utilization of the time of Government employees. If I can be of any assistance, please let me know.
